

Document 1: Singareni Coalfield Overview

Introduction

The Singareni Coalfield, located in the Pranahita–Godavari Valley of Telangana, is the only significant coal-producing region in southern India. It is operated exclusively by the Singareni Collieries Company Limited (SCCL), one of India's oldest and largest coal mining companies.

Basic Information

Field	Details
Coalfield Name	Singareni Coalfield
Location	Pranahita–Godavari Valley, Telangana, India
Operator	Singareni Collieries Company Limited (SCCL)
Year Mining Started	1889
Company Incorporated	23 December 1920
Headquarters	Kothagudem, Bhadrachalam District
Ownership	Government of Telangana (51%) + Government of India (49%)

Coal Reserves

Category	Quantity
Total Geological Reserves in Telangana	23.29 billion tonnes
Proved Reserves (SCCL)	8,791 million tonnes
Cumulative Production (1889–2024)	1.36 billion tonnes
Rank in India	6th largest coal-bearing state

Mining Operations

Parameter	Details
Total Active Mines	39
Opencast Mines	17
Underground Mines	22
Workforce	Approximately 42,000 employees
Contribution to India's Coal Output	~9.2%

Districts Covered

SCCL operates coal mines across six districts in Telangana:

1. Bhadradi Kothagudem
2. Khammam
3. Mancheria
4. Peddapalli
5. Jayashankar Bhupalpally
6. Karimnagar

Type of Coal

- Classification: Non-coking bituminous coal (Gondwana type)
- Primary Use: Thermal power generation
- Characteristics: Medium to high ash content, suitable for power plants

Significance

- SCCL is the second-largest coal producer in India after Coal India Limited.
- It is the only coal mining company in South India.
- Powers multiple thermal power stations across Telangana and Andhra Pradesh.
- Major contributor to Telangana's economy and employment.
