

Document 3: Telangana Mineral Resources Profile

Introduction

Telangana is rich in mineral resources beyond coal. This document provides an overview of all major minerals found in the state, their locations, and economic significance.

Coal Resources

Parameter	Details
Total Reserves	23.29 billion tonnes
Rank in India	6th largest
Type	Non-coking bituminous (Gondwana)
Mining Company	SCCL (sole operator)
Primary Use	Thermal power generation
Districts	Bhadradri Kothagudem, Khammam, Mancherial, Peddapalli, Jayashankar Bhupalpally, Karimnagar

Limestone Resources

Parameter	Details
Total Reserves	7,519 million tonnes
Grade	Cement grade and chemical grade
Uses	Cement manufacturing, chemical industry
Districts	Adilabad, Peddapalli, Mahbubnagar, Nalgonda, Suryapet, Vikarabad, Mancherial

Iron Ore Resources

Parameter	Details
Deposits	Medium-grade ore in Bayyaram Reserve Forest
Additional Deposits	Float ore in Mahabubabad, Jayashankar, Jagital, Warangal Urban
Status	Under exploration and development

Uranium Resources

Parameter	Details
Total Reserves	~11 million tonnes

Parameter	Details
Locations	Lambapur, Pulicherla, Nammapuram, Yellapuram
District	Nalgonda
Status	Strategic mineral under central government control

Other Minerals

Mineral	Telangana's Share of India's Production	Key Districts
Kyanite	47%	Khammam
Corundum	29%	Khammam
Barytes	Significant	Khammam, Warangal
Dolomite	Available	Karimnagar, Adilabad
Feldspar	Available	Nalgonda, Warangal
Quartz	Available	Multiple districts

Granite Resources

Telangana is one of India's leading granite-producing states.

Granite Variety	Districts
Brown Porphyry	Karimnagar
Red Rose	Karimnagar
Tan Brown	Karimnagar, Warangal
Black Granite	Khammam, Karimnagar
Sapphire Brown	Kamareddy

Multi-color varieties Multiple districts

Uses: Construction, monuments, flooring, export

Mineral-Based Industries

Industry Type	Examples
Cement	Multiple cement plants using limestone
Thermal Power	Coal-based power stations
Granite Processing	Cutting, polishing, export units

Industry Type	Examples
---------------	----------

Stone Crushing	Aggregates for construction
----------------	-----------------------------
